RE: Discontinuation of MC55i

Dear Valued Cinterion GSM Customers:

Gemalto M2M GmbH has announced the phase-out of the current Cinterion MC55i module due to the end of life (EoL) of certain key electronic components. In 2011 Gemalto M2M introduced a successor product, MC55i-W which has a compatible feature set and AT commands, updated Rel99 protocol stack and reduced power consumption.

Last time buy (LTB) orders for MC55i must be placed by 9/15/13. LTB orders can be scheduled out to 6/1/14. LTB orders are Non-cancellable and Non-returnable, and Non-changeable.

We thank you for your previous business and look forward to speaking with you soon. For clarification and information regarding Gemalto's Cinterion GSM Modules or other products available from Synergy Systems, LLC, please contact Gina Aspeytia, at 858-566-0666 x107, or gina@synergy-gps.com.

Sincerely,

**Art Sepin
President
